LIGHTING

“There’s no beauty without great lighting. Beauty is never loud. It hides in details, in shape, in moments, in light. Great lighting allows us to see what was always there and to transform it into something beautiful.”

J.J.W.

Jules J. Wabbes è da anni un classico intramontabile di Wever & Ducré. Le sue linee curve ed eleganti raccontano un’estetica raffinata, frutto di una tecnologia produttiva d’avanguardia. Per noi, questa è tradizione nel suo significato più autentico, che si completa con plafoniere e lampade da parete.

Jules J. Wabbes ha sido durante años un clásico de Wever & Ducré. Las líneas grácilmente curvadas reflejan una estética sofisticada. Consideramos esto una tradición en el mejor sentido y continuamos la línea de productos con lámparas de techo y de pared.

THEY'RE FUN TO BATHE WITH

Le lampade IP44 sono protette dagli spruzzi, quelle IP65 persino dai getti d'acqua – perfette per bagni, docce o aree SPA. I modelli sottili sono ideali per spazi ridotti e soffitti bassi. Entrambe le classi di protezione sono disponibili in molte varianti, non solo come spot.

Las luminarias IP44 están protegidas contra salpicaduras, y las IP65 incluso contra chorros de agua, ideales para baños, duchas o spas. Los modelos planos son perfectos para espacios reducidos y techos bajos. Ambas protecciones están disponibles en muchas versiones, no solo como focos.

I sistemi a binario sono più semplici di quanto sembrino: i binari monofase consentono di controllare tutte le lampade insieme, mentre i binari trifase permettono la gestione separata di spot, moduli e sospensioni. Il sistema a 48 volt offre massima flessibilità e si controlla comodamente dallo smartphone.

Los sistemas de riel son más sencillos de lo que parecen: los rieles monofásicos controlan todas las luminarias a la vez, mientras que los trifásicos permiten manejar por separado focos, módulos y colgantes. El sistema de 48 voltios ofrece máxima flexibilidad – y puede controlarse fácilmente desde el smartphone.

mounting

weverducre.com/strex-configurator

Discreetly hidden in the ceiling, as a striking surface-mounted option, or floating freely in the room – with three mounting types you'll find the right solution for any space. Tip: sketch your project and note where the track should run and which zones you want to highlight for a clearer overview.

driver

weverducre.com/strex-configurator

A driver regulates the current flowing through your LED lights, preventing overheating and unwanted flickering. Which is best suited to your STREX system depends on the chosen installation. The most elegant solution is an in-track driver, but many other variants are also available.

GOOD TO KNOW
Electrical components of champagne or bronze connectors and drivers will be black.

OH, HOW ROMANTIC

Chi ha visitato il Belgio conosce le romantiche case di campagna con le caratteristiche persiane in legno, in cui chiunque andrebbe a vivere all'istante. Il loro stile storico e ricercato crea un'atmosfera calda e accogliente, impreziosita dagli arredi artigianali e dalle lampade tradizionali che ritroviamo nella nuova CLASSIC COLLECTION.

Quien haya estado en Bélgica conoce las pintorescas casas de campo con contraventanas de madera en las que uno querría vivir al instante. Su estilo histórico y juguetón crea un ambiente cálido y acogedor – desde muebles artesanales hasta luminarias tradicionales de la nueva CLASSIC COLLECTION.

Two, three, four, or even more, the choice is yours! The number of lights and the sum of their individual wattages is the first thing you need to know to get started with your Plug & Play Connector System.

GOOD TO KNOW
24V Plug & Play Connector System recommends adding 2 or more luminaires to the driver.

2 DEFINE THE DISTANCE BETWEEN DRIVER AND LUMINAIRE

Adjacent or far away. The distance between the driver and the first light is very important as it determines the further options of your 24V Plug & Play Connector System lighting solution. You can find detailed information about your options at weverducre.com/24V-cable-length

GOOD TO KNOW
Each driver is supplied with two 2.5m cables, one for each side.

What's that? A whole new product range, and already several project references? See it this way: Inspiration is key to success in design, so what we care for most is inspiring you and showing you the potential of what we at Wever & Ducré do. Thus, we took the liberty of editing some (original) images to give you an impression of how our luminaires improve living, office, outdoor, and other spaces. These pictures are marked with (V)
